DETAILED ACTION

1. This is in response to the applicant's communication filed on 22 January 2009, wherein:

Claims 1-3, 7-9, 13-15, and 19 are currently amended; and
Claims 4-6, 10-12, and 16-18 are cancelled.

Response to Amendment

1. Applicant's amendments filed 22 January 2009 have been fully considered; Examiner withdraws the objections to the specification. Examiner also withdraws the rejection under 35 U.S.C. 101.

Response to Arguments

1. Applicant's arguments with respect to claims 1, 7, 13, and 19 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

2. Claim 1 is objected to because of the following informalities:

a. Claim 1 states "submitting the translated copy of the material to be copyright to the USCO," which uses improper grammar.

Appropriate correction is required.

Art Unit: 3689

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35

U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. **Claims 1-3, 7-9, 13-15, and 19 are rejected** under 35

U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1, 7, 13, and 19, as amended, state, "the Facilitator's web site accessing the Entrepreneur's web site to obtain a copy of a material to be copyrighted." Examiner does not find this limitation in the specification. Applicant has referred Examiner to page 21 and Fig. 4. The specification reads, "the Facilitator's web site 105 may access the Facilitator's web site 105 over the Internet to obtain a copy of the material to be copyrighted" (emphasis added). Fig. 4 does not supply additional information in this regard.

Claim Rejections - 35 USC § 103

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

6. **Claims 1-3, 7-9, 13-15, and 19 are rejected** under 35 U.S.C. 103(a) as being unpatentable over www.godaddy.com, 02 February 2003 (hereinafter referred to as "Go Daddy"), in view of Glogau (US 5983351).

Referring to claim 1:

Go Daddy teaches

A) the Facilitator's web site offering hosting services on the Internet to the Entrepreneur (page 1; "host your site");

B) the Facilitator's web site assisting the Entrepreneur in designing an Entrepreneur's web site by providing web site design services, wherein the Entrepreneur's web site is hosted on a server and is associated with an IP address managed by the Domain Name System (page 1; "create your own web site"); and

E) the Facilitator's web site electronically submitting the translated copy of the material to be copyright to the USCO (page 1; "Federal Copyright Protection").

Go Daddy does not teach; however, Glogau teaches

C) the Facilitator's web site accessing the Entrepreneur's web site to obtain a copy of a material to be copyrighted (col. 3, line 40 thru col. 4, line 7 and col. 9, lines 23-26;

Art Unit: 3689

"computer system enhances copyright registration of Internet web site(s) by...copy[ing] the client's web site" and where the Facilitator's web site inherently requires use of a computer system);

D) the Facilitator's web site translating the copy of the material to be copyrighted into a format acceptable to the USCO (col. 3, line 40 thru col. 4, line 7; "computer system enhances copyright registration of Internet web site(s) by...format[ting] the 'packaged' web site...for filing" and where the Facilitator's web site inherently requires use of a computer system).

One skilled in the art would have found it obvious from the combined teachings of Go Daddy and Glogau as a whole to produce the invention as claimed with a reasonable expectation of providing a Facilitator's web site which accesses the Entrepreneur's web site to obtain a copy of a material to be copyrighted and a Facilitator's web site which translates the copy of the material to be copyrighted into a format acceptable to the USCO.

Referring to claim 2:

Claim 2 is dependent on claim 1; therefore, the rejection of claim 1 is incorporated as if fully recited herein.

Go Daddy teaches the Facilitator's web site assisting the Entrepreneur in selecting an available domain name having a

Referring to claim 3:

Claim 3 is dependent on claim 1; therefore, the rejection of claim 1 is incorporated as if fully recited herein.

D) the Facilitator's web site translating the copy of the material to be copyrighted into a format acceptable to the USCO (col. 3, line 40 thru col. 4, line 7; "computer system enhances copyright registration of Internet web site(s) by...format[ting] the 'packaged' web site...for filing" and where the Facilitator's web site inherently requires use of a computer system).

One skilled in the art would have found it obvious from the combined teachings of Go Daddy and Glogau as a whole to produce the invention as claimed with a reasonable expectation of providing a Facilitator's web site which accesses the Entrepreneur's web site to obtain a copy of a material to be copyrighted and a Facilitator's web site which translates the copy of the material to be copyrighted into a format acceptable to the USCO.

A) the Facilitator's web site offering domain name registration services over the Internet to the Entrepreneur (page 1; "get a domain name");
